DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 5/9/2006, with respect to claims 1-8 have been fully considered and are persuasive. The non-final rejection of 11/4/2005 has been withdrawn.

Allowable Subject Matter

2. Claims 1-8 allowed.

3. The following is an examiner's statement of reasons for allowance: Prior art failed to establish a voltage-controlled monolithic component of triac type formed in a substrate of a first conductivity type, including: first and second vertical thyristors, a first main electrode of the first thyristor, on a front surface side of the component, corresponding to a first region of a first conductivity type formed in a first well of a second conductivity type, said first well corresponding to a first main electrode of the second thyristor, the first well containing a second region of the first conductivity type; and a pilot structure including, on the front surface side, above an extension of a second main electrode region of the second thyristor, a second well of the second conductivity type containing third and fourth regions of the first conductivity type, the third region and a portion of the second well being connected to a gate terminal, the fourth region being connected to the second region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
